

Paul J. Coates, RA
Architect, Dario Designs Inc.

Mr. Coates is responsible for the supervision, coordination, and implementation of programming, preliminary design, and architectural working drawing activities. In addition, Mr. Coates' involvement continues through all phases of design and construction activities to maintain continuity of the design intent.

Mr. Coates has been with Dario Designs for 25 years and has been involved with projects ranging from small apartment complexes to a multibillion-dollar, mixed use, international development. He has worked on more than 300 projects at Dario Designs, including more than 100 masterplans, several corporate headquarters facilities, and many printing, packaging, manufacturing, and distribution facilities from Washington to Florida.
