Re: Sun Publications of Florida Inc. Facility

Dear Dario:

It is an absolute joy to see Independent Publications' Florida subsidiary, Sun Publications, functioning efficiently in its new Lakeland plant and corporate offices designed by Dario Designs.

Going back to when we conducted the master planning and continuing through the design and construction phases, we have been in the very good hands of the staff at Dario Designs.

I'd like to thank some of the key people who worked with us on the project: Dave Ehrhardt and Leo Parker, who got the project launched; and Charlie Mitsis and Paul Coates, who oversaw the project to completion.

My staff in Florida and I truly enjoyed working with Charlie Mitsis through design and construction. His professionalism and knowledge are top tier.

When we conceived the project there was no question we would turn to Dario Designs to guide us. We had the expectation of a great result and that expectation was clearly met.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew T. Bickford", with a long, sweeping horizontal line extending to the right.
