DARIO DESIGNS INC.
29 Bartlett St.
Marlboro, MA 01752

Dear Dario:

After working with Dario Designs and you for more than 4 years, we have come to realize what a great Architectural firm you are. Not just for your great knowledge and technical ability, but for your integrity, and for how well you have treated us over the years. Our relationship has gone from customer and client to heartfelt friendships. This was a wonderful byproduct of a working relationship. It appears that your people and ours have come to enjoy and trust each other over the years. You have always met or exceeded your promises and have worked very hard to tear down the language and cultural barriers.

You have helped and guided us in our search for the right answers. We have benefited from this tremendously. Do not ever change this.

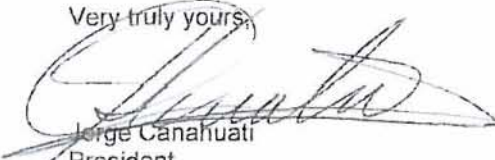

I appreciate the fact that when we started you had no one that spoke Spanish. Now you have Ronaldo, Humberto, Derick and even your nephew, Tre. I can tell you are serious about the Latin American market and I can tell you will do well. Good luck next week in Brazil and Argentina.

We were also very impressed with your in depth knowledge of our industry and to what level you have taken your company to service us and the newspaper industry. We had you do a masterplan, schematic design, financial analysis, production modeling, and are now going forward with space planning and a Press RFP. Please feel free to have any prospective clients call me for a reference.

All of us at La Prensa are grateful for what you have done for us and look forward to a long lasting business relationship.

I personally look even more forward to our lifetime friendship. It has been fun.

Very truly yours,

Jorge Canahuati
President
