Dario Designs Inc.
1 Elda Road
Framingham, MA 01701

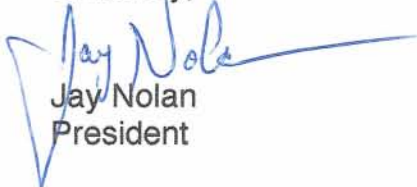

Dear Dario:

Congratulations! You and your crew did an absolutely fantastic job on the design of our new commercial printing facility. Despite the almost impossible deadlines we gave you and the limited budget, you truly did a first class design job. Your process was very detailed, well developed and skillfully completed.

Now that we are operating in the new location, I am very glad we "spent the money upfront" to get your expertise. The efficiencies we have gained in just the first few weeks are already producing an effect on the bottom line. Also, let me again thank you and Paul for being so easy to work with, yet totally professional.

If you ever need a reference from us for another commercial printer, don't hesitate to have them give us a call. And of course, should we ever have a need, we will definitely be calling Dario Design again.

Sincerely,

Jay Nolan
President
