Re: Season's Greetings

To the most excellent staff of Dario Designs, and specifically those of you who worked so hard on the Valley Publishing project, I extend warmest Holiday Wishes and a small token of appreciation.

I commissioned this panel specifically for you guys. Hopefully it has arrived intact. The design and colors are, of course, specific to the organization. And in keeping with the Dario Designs team philosophy the panel was designed on a 4x4 grid.

Thank you for all the hard work you have done (and will do) on our behalf.

John Darrington
Vice President
Valley Publishing.
