205 Walnut St.
Framingham, MA 01702

Dear Dario:

This letter is to thank you for the design plans for the Southeast Missourian. The plan to move in three phases is a great idea, and works very well as far as budgeting. I can't say enough about Kevin Anderson. He spent time in each department, listening to the needs of everyone. All are happy with the plans. I would recommend your service to anyone thinking about a building expansion in the newspaper industry.

Sincerely,

Steve Nichols
Plant Manager
