Dear Dario:

I wish to express my sincere appreciation for your excellent support during the time we have worked together on our various projects. For the last five years, you have worked extremely well with me on both major renovations and minor structural analysis. Regardless of how large or how small the project has been, your assistance and recommendations have been invaluable.

Your organization and thoroughness in approaching a project is admirable and your knowledge in the newspaper field and well as general building design is superior.

I look forward to continuing your relationship with Dow Jones as we proceed with future projects.

Sincerely,

John P. Conboy
