Hi Dario:

Hope all is well. I've received your report and have reviewed it with all of my managers and advisors, and I've been very pleased with the level of discussion it has generated. There's nothing better than an outsider's kick in the pants to get you thinking strategically! We are currently investigating the sale of the warehouse, and have actively been seeking a buyer for our surplus printing equipment. I also have my CFO exploring the implications of re-locating to either New Jersey, Delaware, or locally. I recently toured three folding carton companies in the Los Angeles area. They are doing business in essentially the same structure you recommend for us, and it's just amazing how much more effectively they utilize the space.

Thanks again for getting us looking past the horizon!
