Dear Dave:

I want to express my appreciation and that of the Newspaper Agency Corporation (NAC) to you and the Dario Designs team. Our new newspaper plant located in West Valley is not only state of the art, but very ergonomic and people friendly. Our administrative staff is very pleased with the design of the office areas. The production plant is very well thought out and has already evolved through several alterations. The layout and work flow of the facility will enable NAC to become one of the most efficient operations in the United States and perhaps the world.

Your attention to detail and persistence through difficult issues is greatly appreciated. I am very grateful for your efforts in designing and placing into service the newspaper plant in West Valley City.

Sincerely,

Robert F. Burns
